

CAREER PROFILE

Experienced Full Stack Developer with a strong interest in exploring new technologies and creating innovative applications. Skilled in both front-end and back-end development, I excel in fast-paced environments where I can apply my creativity and technical knowledge to deliver high-quality solutions. Committed to pushing technological boundaries and achieving impactful outcomes, I have a keen eye for detail and a passion for driving results.

EXPERIENCES

Lead Developer 01/2021 - Present
Monachus Bilişim A.Ş.

I served as a Team Leader, overseeing a team of three individuals with varying levels of expertise. I played a critical role in a KOSGEB-supported Complex Event Processing (CEP) project written in Java. This project enables companies to define real-time rules and decisions by applying complex and intricate rules during real-time data streams. Additionally, I actively contributed to the development of a real-time data processing and visualization web application. This project aimed to deliver effective data analytics solutions to clients.

- Event-centric Massive Scale Real-time Streaming Data Processing
- Monachus Bilişim A.Ş. is associated with Altosis Bilişim A.Ş.

Senior Software Engineer 01/2021 - Present
Altosis Bilişim A.Ş.

I have developed the following web application: <https://ranan.mobily.com.sa>. Additionally, I have contributed to the development of the mobile app of the same application Mobily Ranan

- <https://ranan.mobily.com.sa>
- Mobily Ranan

Senior Software Engineer 09/2020 - 01/2021
Lova Pirlanta Sanayi Ve Ticaret Limited Şirketi

Actively developed the UI, made improvements to the front end, and added new features to the C# backend.

- Lova Pirlanta

Part-time Programming Teacher 2018 - Present
Maker Codes

Maker Codes offers a range of technical courses instructed by skilled professionals. As a part-time programming teacher, I lead sessions covering HTML, CSS, JavaScript, C#, Python, Java, Arduino, Unity, and APP Inventor. Our Bootcamp-Training program for adults features an extensive curriculum including HTML, CSS, JavaScript, Node.js, MongoDB, and React-Redux.

- Maker Codes
- Makercodes – Bootcamp

- THY Kargo
- Kuveyt Türk

CERTIFICATIONS

Udemy

Udemy

Udemy

Driven by a passion for learning, I spend my free time exploring different technologies and acquiring new skills. This includes delving into areas such as Arduino, Raspberry Pi, Python, JavaScript, C#, C++, Java, and more. This commitment to continuous learning allows me to stay updated with the latest advancements in technology, enhancing my proficiency and adaptability as a professional in the field.

Bilge Adam

Microsoft

06/2015 - 12/2015

Bilge Adam

This training covers the details of the C# programming language, which is one of the most popular programming languages in the world, as well as the world's most popular client-based web development frameworks and server-based web technologies developed by Microsoft, such as Asp.Net and Asp.Net Core MVC. Additionally, it addresses programming on two of the world's most popular database systems, MSSQL Server and PostgreSQL, as well as developing and using web services.

PROJECTS

Side projects

P&G (Procter and Gamble) -

- Packaging Qualification: A packaging system designed for planning at the P&G Germany factory.
- QAlert: An information system tailored for the production lines at the P&G Gebze factory.
- Action Plan: A comprehensive information and monitoring system deployed across the entirety of the P&G Gebze factory.
- Maintenance of various applications.

O-PAK Sealing Products Distributorship Order system - The application allows for the addition of new customers, each of whom may have a pre-defined discount. The products displayed on the page are configured and selected by the company. The application is built on a .NET Angular MVC framework on a MSSQL database.

Tetraport Teknoloji A.Ş. - Tetra Boss XCRM Localization, integrated a new localization feature into the ASP.NET MVC application.
